

# AFA ACADEMY

## WELCOME TO THE AFA METHODOLOGY PROGRAM

**AFA Academy** in Pembroke Pines, Florida, gives soccer players the opportunity to train under the **Argentinian National Soccer Team Methodology**. The same method that made Argentina one of the most successful countries in soccer history.

Our Academy offers **top quality facilities and AFA certified coaches** to guarantee the perfect environment to develop technical, tactical and mental skills to the World Champion standards, helping young girls and boys to take their game to the next level.

Thanks to the **alliance with Latin United FC**, players in the Competitive Program will test their skills in an official UPSL League and other local competitions. This alliance has the goal to make better players but also great human beings, that's why it's fully committed to core values such as respect, fair-play, team spirit and commitment.
